

FIRE/ INTRUSION/SYSTEMS

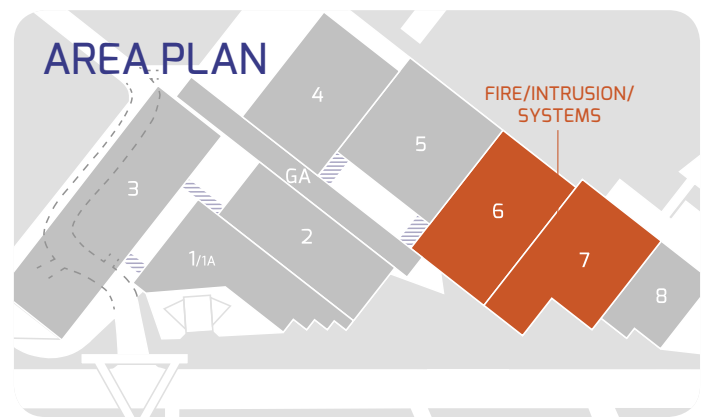

The second most popular segment at 46%. The fire/intrusion/systems sector is subject to numerous legal regulations that are constantly evolving. In this area, exhibitors present products and services that are optimally adapted to the applicable regulations – e.g. mobile fire extinguishing technology, fire alarm systems or property protection systems. Become part of this area and present your innovative products and services to knowledgeable visitors from all over the world in halls 6 and 7.

Secure yourself a stand at security essen 2020 now.
