

PERIMETER

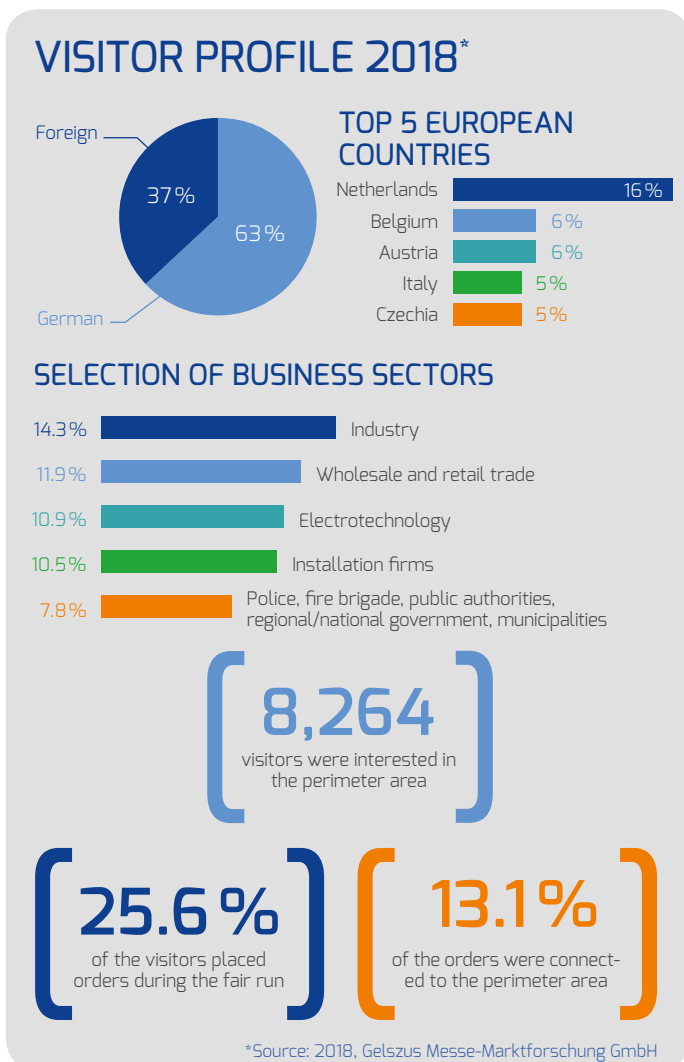

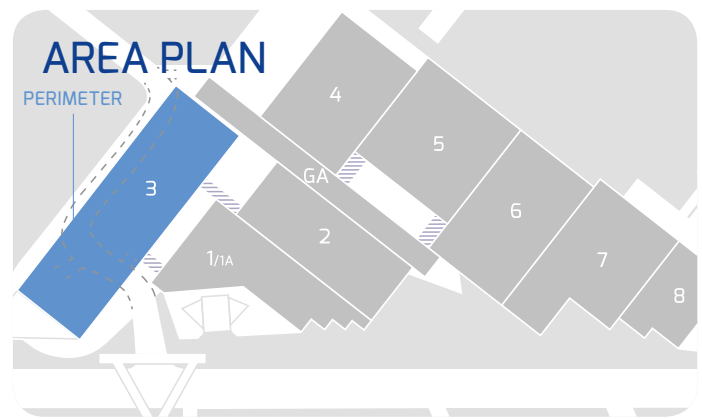

Suitable equipment is required to adequately protect sites, buildings and vehicles. A range of access and exit systems can be just as helpful as lighting or motion detectors. One special option is modern drone technology, which will once again be a special focus this year. Present your innovative products and services to knowledgeable visitors from all over the world in hall 3.

Secure yourself a stand at security essen 2020 now.

PROGRAMME

- Drone circuit in the hall with daily product demonstrations
